Technical Skills

HTML5 MongoDB
Express.js Node.js React
JavaScript CSS3 Git

Soft Skills

Teamwork Adaptability
Time Management

Rahul Rathod

Full Stack Web Developer

Professional Summary

Dynamic full-stack web developer with expertise in the MERN stack, including MongoDB, Express.js, React.js, and Node.js. Proficient in creating and integrating RESTful APIs and adept at utilizing Generative AI for innovative solutions. Exceptionally quick at learning new technologies, ensuring continuous enhancement of development processes.

Projects

YouTube Clone [Live Demo Link](#) [Github Repo Link](#)

React HTML5 CSS3 Responsive Web Design

- Developed a responsive and dynamic user interface using React and CSS3, creating a seamless user experience across various devices.
- Implemented custom video playback features, including play, pause, volume control, and fullscreen mode, demonstrating attention to detail and user-centric design.
- Utilized React Router for dynamic routing, enabling smooth navigation between video playback, user profiles, and the home page.
- Managed application state efficiently with React hooks and Context API to ensure smooth and responsive UI updates.

JavaScript React HTML5 CSS3

Responsive Web Design

- Created a responsive front-end using React and CSS3, ensuring a seamless viewing experience on desktops, tablets, and mobile devices.
- Implemented dynamic display of movie posters, titles, and descriptions, as well as detailed movie pages with comprehensive information.
- Enabled user interaction features such as rating, reviewing movies, and managing watchlists using JavaScript.
- Ensured high performance and scalability of the application by applying best practices in front-end development.
